NOTICE

Value added course [2021-22]

Date: 19/04/22

The Department of Zoology is conducting a value added course on Hydrology. Title of course is "Environmental Ethics: Water Resources, Management, Water Pollution & Health". The course will commence from 23/4/2022.

Duration : 30hrs.

Credits : 02

Mode : Online

Platform: Zoom

Meeting ID: 928 3435 6332

Passcode: 12345

ABOUT US

Hindi Vidya Prachar Samiti was incepted on the auspicious day of Shri Krishna Janmashtami, 15th August 1938. A brain child of a visionary Late Shri Nandkishore Singh Jairamji, samiti was established with the objectives of catering to the educational needs of the Hindi speaking community. Ramniranjan Jhunjhunwala College came into existence in 1963, enabling a larger section of the society to take advantage of the facilities provided for higher education.

From 1999-2000 the College has added a number of self-financing courses like B.M.S., B.B.I., B.Sc. in Computer Science, Information Technology, Biotechnology, M.Sc. in Computer Science, Biotechnology and Information Technology as well as add on courses, which further hone the special skills of the students.

The college has been reaccredited with 'A' Grade by NAAC in 2014 with a CGPA 3.50 and received the Best College Award (2007-2008) of the University of Mumbai. The College has been bestowed with IMC "Ramkrishna Bajaj Performance Excellence Trophy", 2010.

The Principal of the college was awarded "Best Teacher" by Government of Maharashtra in 2011.

Government of Maharashtra conferred the college with "JAAGAR JAANIVANCHA" (First in Mumbai Suburban- in 2013 and Second in Mumbai Suburban- in 2014) for safety of girls.

Course Code: **RJZOOC02**

Duration: **30** hours

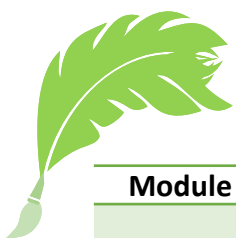

Credits : **02**

LEARNING OUTCOME

The participants will learn about the importance of water resources.

- The participants will get insight into the water cycle.
- They will learn and understand the water pollution problem and its gravity.

COURSE CONTENT

Module	Content
I	Water cycle and water chemistry <ul style="list-style-type: none"> • Water cycle, Properties of water. • Tetrahedral chemistry of water. • Physico-chemical Characteristics water bodies.
II	Water resources and treatment <ul style="list-style-type: none"> • Types of water resource. • National drinking water policy. • Drinking water treatment plants and various disinfection processes. • Household treatment, Drinking water standards.
III	Water pollution <ul style="list-style-type: none"> • Causes ,effect and control measures of water pollution. • Pollution control standards, WHO standards of drinking water. • Water borne diseases. Microbial contamination of water- types, sources, threats. • Microbial standards of drinking water, MPN.
IV	Water conservation and water pollution acts in India. <ul style="list-style-type: none"> • Water conservation: Ice stupa artificial glacier by Sonam Wangchuk. • Rain water harvesting. • Watershed Management: Classification, Objective ,Advantages and Disadvantages.

Biodata of Dr. Rajendra Singh

Profile Of Dr Rajendra Singh

Popularly known as 'Jal Purush, Waterman of India', Dr. Rajendra Singh is a renowned river rejuvenator and environmentalist. Born on August 6, 1959 in Dola village, Baghpat, Uttar Pradesh, he is an Ayurveda graduate and postgraduate of Hindi literature. For his work, he has been awarded honorary doctorate degrees by the University of Agricultural Sciences in Dharwad Karnataka 2014, Purnima University Jaipur in 2016, and from APJ Abdul Kalam Technical University Lucknow in 2019. Dr. Singh has been awarded several international accolades: Chiefly "Ramon Magsaysay Award" in 2001 for community leadership, "Jamnalal Bajaj Award"

for use of science and technology for rural development, in 2005 and the Nobel prize for water the Stockholm Water Award in 2015. The Guardian named him "in the list of the world's 50 people in 2008 who can save the planet Earth." He was also awarded the "Ahimsa" Award in 2018 from the House of Commons, United Kingdom, "Earth Repair" award in 2019 from US Seattle and the Prithvi Bhushan Award from New Delhi in 2019. He is the Founder and President of Tarun Bharat Sangh, established in 1975. It is headquartered near Bhikampur Kishori, Sariska Tiger Reserve in Thanagazi Tehsil of Rajasthan, Alwar district and resides in this village. For the last 44 years, Tarun Bharat has prepared and supported society to construct 11,800 water structures. More than 1,200 villages in the country are now water secure. Communities which were 'water deprived' and poverty stricken, now have water. As a result of their work, 12 rivers in the country have been revived: Arvari, Ruparel, Sarsa, Bhagani, Maheshwara, Sabi, Tibra, Sairni and Jahaz Wali in Rajasthan, Agarni and Mahakali in Maharashtra and Inchanahallain Karnataka. The effect of these works is that adaptation and

mitigation of climate change has been achieved in 10,000 square kilometre area. It is the only example of the world today.

The "Water Ethics, Justice and World Peace Tour" was initiated by Dr Rajendra Singh in April 2015, which travelled to Africa and countries of Central and West Asia and Europe. At the centre of the tour or yatra were people who had become refugees as a result of water scarcity and who had moved to different parts of Europe. More than 20 countries in Africa, 20 countries in Central and West Asia and 20 countries in Europe were covered under this tour. During this journey Dr Singh did an inspiring job of honouring nature and humanity by sharing his 40 plus years of successful experiences of climate change adaptation and mitigation. As a result, many young people have increased thinking about water and nature. They are moving away from greedy development into works of nature regeneration. Dr Singh is committed to save the world from the Third World War, which is being predicted as being due to water. As a result of his devotion, every day, in a new place, new people are engaged in increasing their love of nature and working for it. He considers the Panchamahabhutas God: In its prosperity is the prosperity of the entire living world. He is convinced that Non-violence is the only way to bring prosperity. It is this belief that leads him and TBS on a non-violent path. He is engaged in the work of awakening consciousness by dedicating himself to water and nature day and night as a commitment to the 150 years of Mahatma Gandhi and 125 years of Vinoba Bhave. As a person who respects all religions and nature, Dr Singh considers Neer (water), Nari (woman) and Nadi (river) as Narayan or God. Mahatma Gandhi's message is his way of life. That is why he is working with people, living and learning from them and making them aware of the power they have in creating a society that respects nature and humankind. In doing so, people create, learn from each other and also encourage others. In 1991, Dr Singh filed a PIL in the Supreme Court, which saved Aravalli hills and forests in Delhi.

Haryana, Rajasthan and Gujarat. The effect of this led to protection of forests of India, by awakening a new consciousness, extending the advocacy process of conservation of water, water, land, wild animals and forest dwellers. The devastation caused by mining for economic prosperity for a few gave way to greenery by conserving water, water, and land and sustainable prosperity to many. When the late Prof G D Agarwal was President of TBS and Dr Singh was the Vice President, the dams of Loharinag Pala, Pala Maneri and Bhaironghati, were being built on Bhagirathi river, the main river of Ganga. The construction of these dams were halted due to their efforts. This was the first instance in India, when the Centre and the State Governments accepted the issue of making the river Ganga uninterrupted. Dr Singh is a strong advocate and staunch believer of traditional water conservation knowledge, restoration of groundwater reserves and community management of natural resources. Governments and industrialists do not have the sole right to groundwater. He is committed that nature and people also have rights over natural resources. In all the states across the country through water literacy drives, water meditation camps, water seminars and water conferences he has been instrumental in the formation of 111 groups, constitution of river parliaments and Jalgram Sabhas. He is known for his work on water conservation and revival of pollution-free

rivers and for eliciting public participation and ownership. His passion drives people to get involved and commit themselves. Recently, he has launched the "Seamless Ganga Water Literacy Tour" for the river Ganga. In April 2015, the "Water Ethics, Justice and World Peace" journey had begun. Both tours/yatras will continue till 25 November 2020.

Over the last 44 years of his life dedicated to society, he has provided solutions to issues of climate change, adaptation and eradication through the efforts of local communities, empowering them through water conservation and replenishing groundwater banks. Dr Singh believes that the water problems are such that they cannot be solved

by science or technology alone. What is required is community involvement, policy, leadership and use of local knowledge to arrive at local solutions. In the United Nations, the principle of 'water is climate and climate is water' is recognized by the success of local and 'small efforts' experiments. Dr. Rajendra Singh is a hardworking and fully dedicated worker. With this simple, frugal, true and non-violent 'method' for the prosperity of humanity and nature, we are all actively following the path of Mahatma Gandhi. He has pledged to make peace in the world through water. It can be done! May we all be together and have the moral strength to make this a reality!

Report

Report on Value added course 2021-2022 conducted by department of Zoology.

The Department of Zoology organised a value added course on Hydrology. Title of course was **"Environmental Ethics: Water Resources, Management, Water Pollution & Health"**. It was conducted from 23/4/2022 to 2/5/2022 via online mode on zoom platform. Duration of course was 30 hours. The main objectives of the course were to acquaint learners about water resources and water chemistry. Also to sensitise them to the problems related to water pollution, conservation and water borne diseases.

The course coordinators were Mrs.S.S.Gupte, Dr. G.M.Joshi and Mrs S.V.Singh. 152 students registered from all three streams of college i.e.arts,commerce and science. From these 78 students successfully completed the course. This course helped them to earn 2 additional credits and an e-certificate.

Eminent guest speakers Dr. Rajendra Singh the waterman of India delivered a talk on Climate change Green heat and Dr. Nishikant Gupta from UWE-Bristol,United Kingdom gave a lecture on Water management in the Himalayas.

During the course the lectures on various topics based on Hydrology were conducted by professors of the Zoology department.R.J.College. Mrs.S.S.Gupte conducted lectures on "Water cycle and water chemistry". Dr.G.M.Joshi conducted lectures on "water resources and water pollution". Mrs S.V.Singh conducted lectures on "Water borne diseases and water conservations". Videos and PPT were used as teaching aids during the course for better understanding of the topics. Continuous evaluation was carried out during the course by various methods like quizzes, assignments etc.At the end of the course the feedback from students was taken. The objectives of the course were
