College is recognized under Section 2(f) & 12(B) of the UGC Act. 1956

Affiliated to UNIVERSITY OF MUMBAI II NAAC Re-Accredited 'A' Grade (CGPA: 3.50)

REPORT

A lecture on Career Guidance in Chemistry was delivered by Dr. Asawari Mokul, Assistant Professor, Department of chemistry, as a part of Induction Program for the students of Ramniranjan Jhunjhunwala College on 17/6/2021. Madam highlighted the scope of a Chemistry graduate both in the field of higher education and in the employment sector. She also spoke about the Post graduate courses in chemistry offered by R.J. College. She stressed the importance of the NET/SET/PET examination, which forms the basic eligibility criteria for research and lecturership. Students were given a brief knowledge about the various industrial sectors which recruit chemistry graduates. Some of the jobs mentioned were as Analytical chemist, bio-medical Chemist, Chemical engineering associate, Industrial research scientist, Lab Chemist, Production Chemist, Material Chemist or Synthetic Chemist etc. A degree or diploma in Packaging is a good option to pursue a career in packaging industry. At the end of the session, students interacted with Madam and got their doubts clarified about the various job opportunities available for them as chemistry graduates. After the talk it was well understood that the rate of employment for a chemist is much higher compared to any other degree holder and a Chemist with a PhD degree is expected to have the best job opportunities both in India and abroad.

A total of 112 students belonging to Second year and third year B.Sc Chemistry attended the program along with 5 staff members. Their attendance and feedback forms are well documented.
