Students feedback on Curriculum 2021-22

Any other suggestion:

Sr. No.	Name	Suggestions Given
1.	Kirte Umesh Bhatt	Discussion about final year project and placement should start in second year .
2.	Arvind Lalchand Vishwakarma	Enhancement in code editor new compiler rather than older one's and older language php try to add new frameworks like react
3.	Naved Shaikh	Creating Contractions of domain specific courses in last year students
4.	Katkar Tanaya Ravindra Anuradha	College must arrange some cultural events too
5.	Kaushal mishra	i dont think GIS is any help in current curriculumn, most student go for development it's better to teach student regarding development, security and networking and specially database. This is my point of view, i know there is already experts in curriculum who know what is good or not good for the students
6.	Shekhar Suresh Patwa	Make them use the Editors like VS Code , with new technology like Node js and give them task to create a web application and with normal validation and then responsive web application from 3rd sem. And many other library for css like bootstrap, material UI , etc

Alumni feedback on Curriculum 2021-22 (Responses)

Sr. No.	Name	Suggestions Given
1.	Manish Gyanchand Gupta	For every year students, making project shall make it compulsory. As, it helps a lot in logic building, problem solving and in industry as well. Cloud computing practical should be add on in the courses for skill enhancement.
2.	Jay Charole	Instead of Advance Web Technologies ASP.NET which are hardly old technology students should be given taste of new technology like MongoDB , Big Data.
3.	Zen Dsouza	Latest Technology Used in the Industry World Wide should be Included in the form of Subjects at the Bsc Level as it forms a Very Strong Base to Pursue Msc Masters or any other further Education for that matter.
4.	Sachin Shivkumar Chaurasiya	It would be great if we add JavaScript and one of its framework in advance Web syllabus.
5.	Nikhil Dubey	Needs to add Reacts JS Course in curriculum.
6.	Deepak Mishra	In Advance Web Programming .net is taught but if they get exposed to creating api(using django or spring which is easy in these languages) and to display the data on frontend (using any frontend tech) just give them basic so they can get a head start Because many industries are using api to communicate so if they have a basic understanding of it then it'll be great
	Sudhir Maujnath Gupta	It will be a good practice if any job professional/ person give an hour of hands on experience relevant to work his/her doing
